The presi-dent, Mrs. Don P. Blaine, read a letter from a soldier stationed at Pasig, Philippine Islands, expressing his thanks for a comfort bag sent him by a member of the union. Recommendation Regarding the IIlumination of Rock Creek Bridge, The District Commissioners have been making further efforts to secure the iighting of the bridge across Rock creek at Cincinnati street, traversed by the Chevy Chase branch of the Capital Traction Company. The latter company was requested to light the bridge from its poles, but declined. The electrical engineer then communicated with the Potomac Electric Power Company, requesting the establishment of lights on the bridge. The company, in reply, stated that they would not be justified in building a conduit to the bridge unless they were guaranteed forty-eight lamps. The electrical department thinks the bridge would be well lighted with thirty-two lamps arranged in clusters of two each, but the company states that this will not repay them for their expendi-

ture in installing them.
"It is true," states the electrical engineer, "that the wires now existing on Connecticut avenue extended, beyond the northern entrance to the new Con-necticut avenue bridge, I think it advisable not to establish an overhead system. I would recommend that forty-eight incandescent lamps be established on the Rock Creek bridge, to be connected with the underground system of the Potomac Elec-tric Power Company." The recommendation has been approved.

Auditor Reports Adversely.

I. G. West, the special agent for the Standard Oil Company, has written to the District Commissioners, submitting a claim of 2 cents additional on each gallon of gasoline furnished the District under a current contract with the company. Mr. West states that the company proposed furnishing the District with gasoline at 9 cents a gallon, "delivered from tank wagon." He says that instead of receiving the fuel from the wagon the District authorities have made requisitions for it in barrels. Two cents additional must be paid, the com-pany says, for package and preparation. The District auditor, Mr. J. T. Petty, has reported adversely to the company's claim, saving that the contract with the Standard Oil Company requires it to furnish gasoline a 9 cents per gallon, and expressly stipulates that it "must be delivered without extra charge for cans, jugs, bottles or boxes." In view of this specific provision, Auditor Petty says the proposition to charge 2 cents per gallon extra for gasoline in barrels would seem to be one which the Commissioners cannot legally entertain.

BURIAL OF SISTER LOUISE.

Impressive Services Over Remains at Providence Beapital Chapel. All that was mortal of Sister Louise, whose death occurred at Providence Hospital Wednesday morning, where she had given twenty-five years of her life in ministering to the sick, was laid at rest today in Mount Olivet cemetery. The impressive Catholic services were held over the body in the hospital chapel at 9:30 o'clock. Hundreds of people called at the hospital to pay a last tribute to the woman whose long and successful career had been brought to a close, the end coming just as she was about to extend the work of the hospital. Long before the hour set for the religious service the hospital chapel was crowded. and there were numerous handsome floral tributes about the casket. In the crowded chapel sisters of the several religious or-ders and nurses and doctors, as well as many prominent men, representing all creeds, occupied seats. Among the relatives were Mrs. Mary Lawler, mother of the de-ceased, and her two brothers and sisters. The celebrant of the mass was the Rev. Father Lennon, the spiritual director of the order to which the deceased had belonged.
He had come from St. Joseph's Seminary,

A committee appointed by the presiding officer reported a series of resolutions, which were adopted, setting forth that "Almighty God in His wisdom has seen fit remove from our midst and the scenes of her labors Sister Louise, who has served Providence Hospital and the afflicted of our city so faithfully and so well for the past twenty-two years;" therefore, "while recognizing and bowing to the divine call, the medical board and board of visitors assembled in joint session realize that in her death Providence Hospital has lost a wise, faithful and efficient officer and friend and our city one who at all times held open the doors for the admission of the poor and the afflicted who needed treatment. "That in the passing away of so gentle and yet so strong a leader our institute and

the community has suffered an irreparable loss-a loss which comes to us and the many who have been benefited by her abiding charity as a personal friend."

It was decided that the medical board and the coming winter.

To the Editor of The Evening Stars The writer of the article headed "Reci-

procity" in Wednesday edition of The Star is laboring's under a false impression of what reciprocity really is. He seems to have reciprocity confused with free trade. It certainly would not be wisdom for America to relinquish any of the advantage that she has gained in ther trade with other countries, but she should by reciprocity agreements endervon to further that advantage. . Mr. Lamoureux terms it. "Nothing but a sharp bargain." The writer is glad to concede that it would be such, and what is more, should be such. Our legislators are placed in office to look after the interests of our own people and not after the welfare of other nations, at least as far as trade is concerned. Imagine what the result would be to a man in business who became so solicitous over the welfare of others that he was unwilling to make any more profits from them than they made from him. As far as trade relations are concerned is not the United States in the same position
